

Weekly Operation Meeting

From Date:	13/July/2019
To Date:	19/July/2019
Submit Date:	20/July/2019
Submit By:	Kreom Dararith
Department:	Web & Mobile Application Development
Head of Support:	Maco (Theom Buntheoun)

Team Weekly Result:

- Completed eO-CSMA Presentation Document, Design Prototype & Demo
- Team Training Result Review
- Completed Health Check
- Teams: Learn ReactJs and Practice an exercise

Currently working:

- Design Fact Sheet for eO-Hospitality
- Design Prototype of CSMA for Demo
- Creating CSMA Presentation Slide

Problem Listing:

- Difficulty to stick to timeline, due to not specific duties and bad analyze timeline skill
- (Coding Procedure) don't have enough time to analyze and drafting before implementation
- Complain about not working as multi job specialize, better focus on one specific job
- Cannot reject, Involve with other task
- Urgent Meeting or task distract the process Coding
- Little experience make understanding difficult (foundation, coding general knowledge)

Suggestion and Requirement:

-
- Request to fixed and replace broken equipment
- Reduce external task

Planning:

- Recover work from PMS Project
- Make Team involve with ReactJS Project
